• HÄUFIGE FRAGEN

What does "Ableton Certified Training" mean?

School of Sound is the Swiss Ableton & Steinberg Certified Training Center – course content and trainers are certified and vetted by Ableton. You learn to an official standard and receive a School of Sound certificate of attendance.

In which language is the course held?

The Club VJ Course is held in English. It is also well suited for non-native English speakers, as the focus is hands-on practice with Resolume.

Who is this course for?

Aspiring VJs, club and event visual operators, and anyone working with projection or stage visuals who wants a structured introduction to Resolume.

Do I need prior experience for the Club VJ Course?

No. This is a beginner-friendly 5-day introductory survey course covering all aspects of Resolume. Basic computer skills are enough – no VJ experience required.

What can I do after this course?

You can provide improvisational visuals for live events, set up background lighting or projection, and run projector-based campaigns – a complete overview to start VJing with Resolume.

What happens if I miss a course day?

Let us know at least 2 weeks before the start date – you can then switch to another or a later date free of charge.
