

CLUB VJ COURSE – VIDEO PERFORMANCE WITH RESOLUME

Übersicht

Resolume is both a media server and a versatile application for live VJing performances. Provide improvisational visuals for live events, set up background lighting or run an advertising campaign with projectors? Attend our 5-day introductory survey course in English, covering all aspects of Resolume.

Lernziele

This course will be held in English. Swim the Shine will be your instructor who has years of experience DJing, VJing and teaching.

All you need is your own laptop. During the course you may use a trial version of the software. (<https://resolume.com>)

Day 1

- Learn about the history of VJing
- Find out about the minimal hardware set-up (computer, projector, MIDI controller and connectors)
- Install the Resolume software
- Tour the Resolume interface and understand its workflow

Day 2

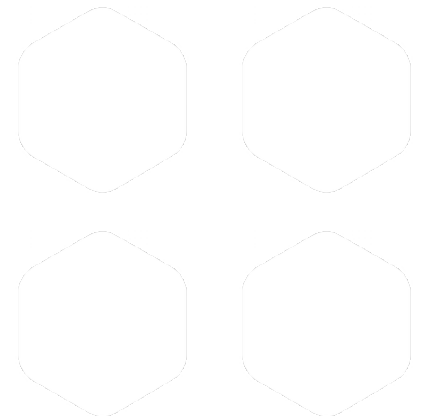

- Try your first hand at VJing (hands on)
Learn how to improvise live and individual content
